DINESH NALLA

Agentic AI Engineer · Android Systems Builder

Solapur, Maharashtra, India · nalladinesh53@gmail.com · github.com/nalla-dinesh · linkedin.com/in/dinesh-nalla-6037533b1

SUMMARY

Engineer building agentic AI systems and Android applications. Experience across multi-agent orchestration, RAG, offline-first mobile architecture, native Android services and product delivery. Focus on maintainable systems, explainability and reliability on real devices.

EXPERIENCE

Co-Founder & Lead Flutter Developer · VALVIX · 2025 – Present

Lead end-to-end Flutter product delivery as a freelance studio — 10+ Android apps shipped across healthcare, fitness, retail and business domains. Clean Architecture, Riverpod, Drift/SQLite, offline-first data and AI integrations.

Android App Development Intern · Dominal Technologies · Jul – Aug 2026

Completed a 1.5-month internship in Android application development.

Flutter App Developer Intern · DK Technos · 2024

Contributed to end-to-end mobile application development with Firebase integration and deployment.

SELECTED SYSTEMS

AIOS — Multi-agent AI operating system with eight specialized agents, shared context, Groq/Ollama routing, RAG, evaluation and documentation workflows. Python, FastAPI, LangChain, LangGraph, Redis, PostgreSQL, ChromaDB.

InsiderLens — Explainable insider-threat detection: 13 configurable rules, graph analysis, evidence ledgers, case workflow and ground-truth-governed evaluation on synthetic data. FastAPI, NetworkX, PostgreSQL, React.

WalkMate v2 — GPS walking tracker with Kotlin foreground service, checkpointed sessions, crash recovery, GPS noise filtering and OEM-aware battery guidance. Flutter, Kotlin, Riverpod, SQLite.

VITARA / MEDIQO — Gamified AI health app and offline pharmacy management system from earlier product work: feature-first Clean Architecture, Firebase/SQLite, AI coach, billing and inventory workflows.

SKILLS

AI/Backend: Python, FastAPI, LangChain, LangGraph, RAG, ChromaDB, Gemini, LLM APIs, REST. Mobile: Flutter, Dart, Kotlin, Riverpod, GoRouter, BLoC, Hive, Drift/SQLite, foreground services. Data/Tools: PostgreSQL, Redis, Supabase, Firebase, Docker, Git, Prometheus, Grafana.

EDUCATION & PUBLICATION

B.Tech, Computer Engineering · VVP Engineering College, Solapur · 2025 – Present. Publication: “Your Home Our Care”, IJSRC Vol. 7 Issue 6, 2024.
